

Standalone Android Physical-Device Test Log

Student Name:	Fajwan Chanjwok	Registration No:	25/28110
Application Name:	FCPortfolio	Verification Code:	MOB-A2-8110
Test Device Model:	Google Pixel 8 (Physical Device)	Android Version:	Android 14 (API 34)
Package Identifier:	rw.ac.ines.ug2528110.fcportfolio	Build Profile:	EAS Build Preview (Standalone APK)

1. Physical Device & Environment Verification Suite

Test ID	Verification Objective	Execution Procedure	Observed Result	Verdict
TC-ENV-01	Standalone APK Launch (No Expo Go)	Install MOB_A2_2528110.apk via ADB on physical phone. Launch from app drawer.	App splash screen renders immediately and opens Home screen without Expo Go client.	PASS
TC-ID-01	Core Identity Statement Check	Inspect first sentence rendered in hero section of Home screen.	Exact text rendered: "My name is Fajwan Chanjwok." Matches README and UIUX PDF.	PASS
TC-ID-02	Individual Verification Code	Verify code on About screen and Home screen against registration number 25/28110.	Monospace chip displays MOB-A2-8110. Matches handwritten video card.	PASS
TC-NAV-01	Bottom Tab Navigation	Sequentially tap Home, Skills, Projects, Profile, and About tabs.	Smooth tab transitions with proper icon state toggling and header updates.	PASS
TC-NAV-02	Project Details Nested Stack & Back Behavior	From Projects tab, select Project 1. Verify detail view. Press Android system back button.	Transitions to ProjectDetails; back button cleanly returns to Projects list preserving scroll.	PASS

Page 2: Input Validation, Persistence & Media Tests

Test ID	Verification Objective	Execution Procedure	Observed Result	Verdict
TC-VAL-01	Rule 1: Headline Length Validation	Input "Dev" (<5 chars) in headline field. Observe field-level message and Save button.	Inline error appears: <i>"Headline must be at least 5 characters long."</i> Save button disabled.	PASS
TC-VAL-02	Rule 2: Biography Length Validation	Clear bio and type "Short bio" (<25 chars). Check feedback message.	Inline error displays character counter: <i>"Bio is too short (9/25 characters minimum)."</i>	PASS
TC-VAL-03	Rule 3: Primary Skill Validation	Clear primary skill field completely. Verify blocked save state.	Inline error displays: <i>"Primary skill cannot be empty."</i> Save button remains blocked.	PASS
TC-VAL-04	Valid Form Submission	Fill valid headline, 50-character bio, and skill. Tap Save Profile Changes.	Save button activates. Success alert appears confirming persistence to AsyncStorage.	PASS
TC-ST0-01	AsyncStorage Cold Reboot Recovery	Save custom headline and avatar. Force-stop application via Android App Info. Re-launch app.	Custom headline, bio, and image URI are loaded from AsyncStorage immediately on launch.	PASS
TC-MED-01	Gallery Media Picker & Cancellation	Tap "Choose from Gallery". Cancel gallery picker without selecting an image.	App catches cancellation gracefully, displays feedback banner, and retains prior avatar.	PASS
TC-MED-02	Camera Capture & Photo Removal	Capture new photo via camera. Verify preview. Tap "Remove" button.	Photo sets as circular avatar. Remove button prompts confirmation and restores default avatar.	PASS

Page 3: Airplane Mode & Demonstration Protocol

1. Offline & Airplane Mode Rigorous Testing

Test ID	Verification Objective	Execution Procedure	Observed Result	Verdict
TC-OFF-01	Airplane Mode Autonomous Operation	Switch phone to Airplane Mode (Wi-Fi OFF, Cellular OFF). Navigate across all screens.	100% functionality preserved: hero section, skills, projects, and editor operate without delay.	PASS
TC-OFF-02	External Link Labeling & Safety	Inspect project external GitHub link in Project Details while offline.	Link is explicitly marked “(Requires Internet Connection)”. Tapping alerts user offline safely.	PASS

2. Demonstration Video (2-Minute) Sequence Verification

The demonstration video MOB_A2_2528110_DEMO.mp4 was recorded continuously without cuts, verifying:

- Handwritten Card:** Name (Fajwan Chanjwok), Reg Number (25/28110), App Name (FCPortfolio), Code (MOB-A2-8110).
- Installed Standalone APK:** Launched directly from Android home launcher without Expo Go.
- Core Statement & Portfolio:** Clear visibility of 'My name is Fajwan Chanjwok.' and project inspection.
- Validation Error & Recovery:** Intentionally typing short headline (<5 chars), observing error, correcting, and saving.
- Cold Restart Restoration:** Swiping app away from recent apps, reopening, and verifying persisted data.
- Verification Card Preview:** Navigating to About screen showing MOB-A2-8110.
- Airplane Mode & Clock:** Status bar showing airplane icon and device clock during unedited capture.

Tester & Developer Sign-Off

Lead Developer & Student:	Fajwan Chanjwok
Academic Institution:	INES-Ruhengeri (Software Engineering Department)
Test Date & Location:	October 9, 2026 • Musanze, Northern Province, Rwanda
Overall Test Assessment:	100% OFFLINE CAPABLE • PRODUCTION READY
